# Resume

Your life at Gaming Knights will be easier; jobs will be completed quickly and effectively to a high standard. You will be obtaining a reliable hard worker, who is a friendly and approachable person and someone that is certainly knowledgeable in this field.

I am currently completing a degree in IT through RMIT (through distance learning on the internet) so I can be more flexible than most others with working hours.

## **Advantages for *You!***

- You will not need to waste your valuable time teaching me skills in regards to a range of things, from the computer games there, to the cleaning and upkeep of the store, to even the networking side of things, due to my previous experience in these fields.

On this note, I professionally networked and maintain GPD International P/L's (and others) computer systems to a professional level.

- Supervision and assistance with tasks will not be necessary, as I am self motivated, trustworthy and a fast learner.
- You will be free to concentrate on the Executive level details such as increasing sales, your bottom line and growing your business; confident that the day to day level responsibilities will be taken care of by me to your high standards.
- You will receive adult maturity and skills, at junior pay rates!
- You will be happy to know that I am the holder of a "Duke of Edinburgh award".

This gives me all types of skills that can be applied to work at **Gaming Knights**, such as working with different types of people in the community from different races, age groups and social status; this will ensure good customer communication and relations!

Through achieving this award, I have learnt to complete tasks diligently and I can take orders well. (Cleaning toilets came with this experience!)

- Living nearby on The Esplanade allows me to be at the store in 5 minutes to provide assistance.
- I have a large network of friends/acquaintances in the community, and I will encourage them to visit **Gaming Knights**, and *spend cash*.

I have worked previously at 'Stuck On You' a Geelong based Sticker manufacturing company. I had a number of responsibilities there including processing credit card orders and working on dispatch (bagging up and collating stickers)

A number of other jobs, such as working as a waiter/bar hand at functions, have provided relevant experience. I was commended for my customer service, organisation skills and attention to detail in high pressure situations. (This employer is used as a referee "Mick Nikolovski").

You can test me out with a pay-free afternoon as an example of the work I can do, as said above I am flexible, so this can be anytime.

## Referees

**Mick Nikolovski**

Director of BIM Enterprises  
Institute
