Resume

I am currently completing a degree in IT through RMIT (through distance learning on the internet) so I am extraordinarily flexible with working hours.

I live 5 minutes away, so I am very flexible and can come on very short notice.

I have worked previously at 'Stuck On You' a Geelong based Sticker manufacturing company. I had a number of responsibilities there including processing credit card orders and working on dispatch (bagging up and collating stickers), I have had a number of other smaller one off jobs, such as working as a waiter/bar hand at adults parties, where I have been commended enthusiastically for my organization skills and attention to detail in high pressure situations. (this employer could be used as a referee).

I am an extremely fast learner who will work well in solo and group circumstances.

I am an avid player of computer games, World Of Warcraft, Counter-Strike, W3-TfT etc.

I also set-up and maintain my Dad's network at his business, and I have also set-up and maintained networks at my friends houses

Some of the things I am proud to have accomplished:

A 28Km marathon run.

A 6 Day hiking program through the Victorian Alps.

These demonstrate my determination, stamina and diligence to complete difficult tasks and show that I'm not afraid of hard work.

I am the holder of a "Duke of Edinburgh award"

This award is accomplished by a large amount of hours doing community service, a large number of hours doing physically challenging exercise and a number of hours doing self improving tasks (e.g. musical instrument).

I can complete task diligently and I can take orders well.

To summarize, I think I would be a valuable asset to the Gaming-Knights community as a reliable hard worker, friendly and approachable person and someone that is certainly knowledgeable in this field.
