

An Essential Tool for Climbing (corporate) Ladders

For the serious fashion *oficionado* – this is a tailoring event not to be missed Kition Su Misura.

It takes 50 hours to make a “K” suit – Kition’s latest creation. Produced from the finest 14 micron super 200 Merino Wool on a mannequin custom made to the buyers measurements, this is a suit that brands its owner distinctively apart from the pack.

Established 30 years ago by Ciro Paone and Antonio Carola, Kition represents the pinnacle of men’s clothing because it is that rarest of creations – an artisan garment.

Hand measured, hand cut and stitched – it could be yours from \$6900. Luca and Antonio de Metteis will be available for your personal appointments.
