Please make an appointment to save lives today

Dear Mr Marsh,

Your last donation saved the lives of three people. The good news is you'll be able to donate again from Saturday, 02/03/2013 and save three more lives.

Blood has a short shelf life, so making regular blood donations is essential to helping those with cancer, heart disease and other serious illnesses.

If your circumstances change - for instance if you plan to change your address or are unwell - let us know. We'll be happy to work out a future donation plan with you.

Please do something special - make an appointment today by calling 13 14 95 or visit donateblood.com.au

If you have given blood since the date of this letter, thank you very much on behalf of all those patients who rely on you.

Kind regards,

Maureen Bower
Donor Services Manager - VIC

Your personal details

Donor ID: 4579498
Last visit: 19/11/2012
Number of donations: 10

Someone's mother Someone's father Someone's child

Kelle, mother of Garter, needed blood to recover from complications during labour.

Geoff, father of two, needed blood transfusions after an accident.

Charlie received red cells and platelets to help him through chemotherapy to treat his leukaemia.

Important tips to remember before you donate:

- Please have plenty of liquid the day before donation.
- Have at least 3 glasses of water/juice in the 3 hours before donating.
- Also make sure you eat at least 3 hours before.
- Call 13 14 95 to check if your medication or medical issues could affect your donation.
- Bring at least one form of photo identification.
