"Our purpose is to promote optimal health and wellness for you and your family through natural chiropractic care. As Chiropractors we adjust spinal subluxations to remove nerve interference, allowing your body the greatest potential for health and healing."

Good morning Mary,

I am writing to tell you that I must be stupid!

Not that I'm proud of being stupid. Far from it!

You see just the other day one of our very best patients asked me whether it would be alright to send one of her friends in to see me. And of course I told her that we'd be delighted to see him and make them feel special as a friend of theirs. And he came in and we helped to solve his problems for him.

But here's why I must be stupid.

I never thought to tell you, or any of our other good clients, that we'd really appreciate you referring your friends and colleagues to us. After all that's where so many of our clients have come from... your recommendation and word of mouth.

So if you have someone you'd like to introduce to us, please feel free to tell them to ask to see me. Tell them I may be stupid... but I'll be a great Chiropractor for them.

Yours sincerely,

Dr Paul Finn B.App.Sc.(Chiro.) – Chiropractor

P.S And when you introduce a friend we'll be happy to send you a small gift ... just to say thank you!

I've enclosed a gift certificate with this letter so **you** can help them! Give one to a family member or friend and all they have to do is, call by the date stamped on the certificate and their entire first visit.... whatever they need... is **FREE**... compliments of you! The usual value of this care is \$91. Give it to someone **today**... before you forget or it expires on **December 1st**.

FREE Gift Certificate
